LIQUID PATCH 1LTR

LP1

Liquid Patch is a fibre based puncture sealant, which immediately & permanently protects both tube & tubeless tyres against punctures in the tread area up to 6mm in diameter. Liquid Patch repairs punctures from the inside out. When a tyre is punctured escaping air forces the sealant to the puncture site and repairs the leak creating a Liquid Patch. Some of the liquid will go through the hole to the outside of the tyre. When Liquid Patch is exposed to air, it dries and causes a permanent seal. Liquid Patch is easily installed through the tyre valve. It takes less than a few minutes per tyre. As the tyre rotates, the centrifugal forces spreads the liquid evenly over the inside casing. The tyre is now protected against punctures. Size: 1 Litre

Price: Not Available

LIQUID PATCH 250ML

LP250

Liquid Patch is a fibre based puncture sealant, which immediately &

Price: Not Available

permanently protects both tube & tubeless tyres against punctures in the tread area up to 6mm in diameter. Liquid Patch repairs punctures from the inside out. When a tyre is punctured escaping air forces the sealant to the puncture site and repairs the leak creating a Liquid Patch. Some of the liquid will go through the hole to the outside of the tyre. When Liquid Patch is exposed to air, it dries and causes a permanent seal. Liquid Patch is easily installed through the tyre valve. It takes less than a few minutes per tyre. As the tyre rotates, the centrifugal forces spreads the liquid evenly over the inside casing. The tyre is now protected against punctures. Size: 250ml

LIQUID PATCH 500ML

LP500

Liquid Patch is a fibre based puncture sealant, which immediately & permanently protects both tube & tubeless tyres against punctures in the tread area up to 6mm in diameter. The repair occurs while you are driving and is permanent. Liquid Patch is also environmentally friendly, non flammable and non hazardous. Liquid Patch repairs punctures from the inside out. When a tyre is punctured escaping air forces the sealant to the puncture site and repairs the leak creating a Liquid Patch. Some of the liquid will go through the hole to the outside of the tyre. When Liquid Patch is exposed to air, it dries and causes a permanent seal. Liquid Patch is easily installed through the tyre valve. It takes less than a few minutes per tyre. As the tyre rotates, the centrifugal forces spreads the liquid evenly over the inside casing. The tyre is now protected against punctures. Size: 500ml

Car Accessories

ANIMAL REPELLER SONIC BLACK

AR01

Air flows through the repeller producing an ultra sonic sound which is helpful in warning off most wildlife on the road ahead. Black finish

Price: Not Available
Unit Qty: Not Available

CAR COVER POLYPRO LARGE/EXTRA LARGE-UP TO 5.3Mtr

CC13

The Polypro Car Cover provides high level protection against UV rays, smog damage, rain oxidization, bird droppings and air borne grit. The mesh ventilation system prevents condensation from being trapped under the cover. Strong and lightweight, double stitched seams provide extra strength while the soft lining won't scratch or dull the paintwork. Suits large to extra large vehicles up to 5.30m.

Automotive Engine Oils

AXCL ENGINE OIL SAE 20W/50

GTI2205020

GTi is a premium quality multi-grade motor oil available in various viscosity grades for use in passenger cars and light trucks. This motor oil contains special lubricant properties to enhance engine life and reduce excess wear and tear. This lubricant also inhibits oxidation and the build up of deposits. GTi motor oil is highly recommended for all petrol and naturally aspirated diesel engines of passenger cars, light commercial vehicles and farm equipment for which multi-grade motor oils are specified.

AXCL GTi2 ENGINE OIL SAE 15W-40

SON001

This is a high quality motor oil intended for use in passenger cars that have normally aspirated engines or turbo-charged engines. These oils are most suitable for new cars and light trucks that require multi-grade properties. It meets and exceeds the requirements of API SG/CD as well as the G4 and PD2 requirements of CCMC/ACEA. It also exceeds the car manufacturers engine oil performance criteria. GTi2 motor oil is specifically designed to provide extra protection against corrosion, oxidation, sludge and rust. The built-in viscosity improver protects in extreme weather conditions.

AXCL XDi2 DIESEL ENGINE OIL

DMO5L

A highly advanced diesel engine oil available in both mono grade and multi grade specifications. It is highly suitable for high performance naturally aspirated and turbo charged engines. XDi2 is specially designed to cope with harsh climatic conditions and where high temperatures and pressures prevail. The formulation is such that it minimizes the effects of high sulfur fuels and ensures that the alkalinity reserve is maintained during extended service. This product is highly recommended for high output, direct injection, turbo-charged engines.

CRC 2.26

2005

CRC 2-26 displaces and seals out moisture. Prevents corrosion, cleans, lubricates, penetrates. CRC 2.26 is a stable, inert organic formula , especially

Price: Not Available

Unit Qty: Not Available

prepared to prevent and repair electrical failures due to moisture, corrosion, dirt or friction. Contains no silicones. Non-flammable. A '6 in 1' product: 1. A moisture eliminator - for wet equipment. 2. A moisture barrier to prevent trouble before it starts. The protective film seals out moisture. 3. A lubricant - lubricates contacts. 4. A penetrant - frees rusted or corroded parts. 5. A protector against corrosion in all electrical equipment.. 6. A cleaner - apply to a corroded area - the solvent system in 2.26 will act as a degreaser.

CRC 3.36

3005

CRC 3-36 prevents rust and corrosion by displacing and sealing out moisture and by forming a continuous protection barrier against water and oxygen

Price: Not Available

CRC TREFOLEX C.D.T. CUTTING OIL

3063

CRC CDT Cutting Oil is a superior cutting, drilling and tapping lubricant for use on all types of metal. Additives in CDT Cutting Oil create a strong film that can withstand extreme pressure to increase tool life and improve cutting.

Price: Not Available

Unit Qty: Not Available

CRC TREFOLEX CUTTING COMPOUND

3060

Treflex is a green coloured, active cutting compound containing a colloid. It melts slowly as frictional heat is generated. It maintains efficient lubrication throughout operations such as pipe screwing, hack sawing, tapping, reaming, etc. It is suitable for all users of hand tools. Treflex prolongs the life of the tool. It will not corrode steel nor affect aluminium. Although the surface of copper and brass is darkened, the metal suffers no detrimental effect. It is ideal for use with stainless steel.

used. Some examples of Helmar H4000 Silicone Spray's applications are :
Industrial : Lubricates sliding surfaces, cutting dies, mould release, parting agent, heat sealing equipment, spatter guard, prevents adhesive build up, lubricates knives, saw blades, needle points, cutting table surfaces, shell core moulding, prevents ice adhesion, repels ink and water. Lubricates curtain and vertical blind tracking. Sport : Protects against salt water, fishing equipment, waterproofs leather footwear, spray on ski equipment, sailing and boating equipment, preserves rubber o-rings in swimming pool filter equipment. Household : Curtain tracking, vertical drape tracking, frees sticky draws, sliding windows and door tracking, hinges, garage doors, zippers, luggage. Spray on furniture, patent leather shoes, handbags, etc for a brilliant shine. Automotive : Doors, Locks, hinges, silence noisy fan belts, waterproof ignition systems, lubricate rubber mountings, dashboards, insulate electrical systems, speedometer cables, window channels, remove dashboard squeaks, for an excellent shine spray on tyres, rubber mouldings, leather or vinyl interiors.

INOX GREASE 30g TUBE BLISTER PACK

INOX30HP

INOX-mx6 is a fully synthetic Extreme Pressure grease formulated to give premium performance and food grade purity. This grease is composed entirely of ingredients which meet the requirements of section 178.3570 of the US FDA regulations and have been cleared for use within registered establishments by the US Department of Agriculture and will not deleteriously affect meat or meat products.

INOX NO CHUKKA CHAIN LUBE with PTFE

CHUK300

INOX-mx9 No Chukka Chain Lube is a superior grade, high speed, extreme pressure chain lube formulated with special tackifiers, coagulants, anti-corrosion and water proofing compounds to make it stay on the chain, hence the name 'No Chukka Chain Lube'. INOX-mx9 No Chukka Chain Lube contains the extreme pressure friction modifier PTFE (polytetrafluoroethylene) which gives increased lubrication, reducing wear and also helps in reducing operating temperatures. INOX-mx9 No Chukka Chain Lube is highly resistant to salt, chemicals, water wash out and drying. Because of its' heavy duty, highly tackified mass and extreme pressure lubricating ability, INOX-mx9 No Chukka Chain lube can be used in other lubrication applications, such as small ball and pin bearings, bearing slides, metal bushes, winch cables, etc.

INOX PLUS with PTFE

IN5031

INOX mx5 Plus has been specially formulated by modifying the original INOX base formula together with the addition of a high grade friction modifier - Polytetrafluoroethylene. INOX mx5 Plus has been designed for applications where a superior extreme pressure, anti-corrosion, anti-moisture liquid lubricant, a high grade penetrating oil or an industrial quality machine cutting lubricant is required (Safe to use in saw, lathe & milling reservoirs). INOX mx5 Plus will not harm metal points or surfaces, fibreglass, formica, painted or enamel finishes, plastics or neoprene seals. INOX mx5 Plus will not become tacky, alter surface tolerances, dry out or wash off with water INOX mx5 Plus is non-toxic, non-conductive, non-corrosive and non-staining. Polytetrafluoroethylene (PTFE) is premium grade extreme pressure anti-friction medium which gives increased lubrication ability between the contact surfaces. This reduced friction environment also lowers operating temperatures.

PENETRENE ORIGINAL 250mls

PEN250

Penetrene has been specifically designed to meet the needs of automotive and industrial users, trades people and professionals who expect nothing less than the best. Penetrene is the unchallenged heavyweight protectant, lubricant and rust penetrator. Unlike similar products Penetrene's unique chemical composition keeps on working. The solvent base doesn't evaporate as quickly as others which allows the lubricants to keep penetrating. Industrial strength Penetrene has a superior ability to penetrate rust and grime, lubricate moving parts and protects all metal tools and parts from rust and corrosion. Penetrene is now available in a convenient 400 gram aerosol, handy 250ml & 500ml squeeze bottles, 1 litre pump spray, a bulk 5 litre and 20 litre pack as well as an all conquering 200 litre drum. "It's still the same old Penetrene, we've just upgraded the packaging." Penetrene has hundreds of uses in the workshop, on the job and around the house.

LANOX MX4 LANOLIN GREASE

4520

LANOX-mx4 Grease is a non-toxic, Food Grade Approved Lanolin grease. It is made from a pure high technical grade anhydrous lanolin, food grade approved additives and anti-oxidants. It has been especially designed to remain pliable at very low temperatures with the right amount of gripping tackiness (non-fling) to hang on and still have flexibility for the user. LANOX-mx4 Grease is waterproof, non-conductive and safe to use on all surfaces. It is highly suitable for anti-corrosion, rust proofing and anti-fouling coatings for all metals used in Automotive, Aviation, Commercial, Construction, Earthmoving, Farming, Industrial, Marine, Mining and Transport applications. Waterproofs and protects leather. Preserves timber from water, cracking and dry rot. (Do not use on green timber). Anti-seize for bolts, nuts and threaded rod. Stops electrolysis between dissimilar metals. LANOX-mx4 Grease is Non-carcinogenic, bio-degradable, highly resistant to salt and acid corrosion, provides lasting protection. LANOX-mx4 Grease is environmentally and user friendly. LANOX-mx4 Grease looks like creamed honey and has no lanolin odour FOOD GRADE APPROVED: Australia (Type 'A') Instrument of Approval is freely available on request from Candan Industries P/L.

AAFO350

Septone Deodorised Fish Oil is a deodorised corrosion preventative designed to inhibit the formation of rust in internal box sections, door cavities, sills and pillars of motor vehicles, as well as on structural steel, railings, gates, bridges, pontoons and for the protection of welds. Fish Oil has long been considered to be one of the most effective products for rust prevention. Fish Oil penetrates through rust to give the parent metal protection from further rusting. However, note that Fish Oil is not a rust converter. For badly rusted areas, apply a rust converter prior to applying Fish Oil.

Anti-Seize Compounds

DEVCON STOP SEIZE NICKLE

19030

Stop Seize – Nickel is a heavy duty, high temperature water repelling compound that protects against seizure of metal parts. Stop Seize – Nickel resists corrosion and galling and reduces friction and wear in heavy pressure applications. It is recommended for use with stainless steel and other alloys where a copper based anti-seize compound is unsuitable. It does not contain sulphur, copper, molybdenum disulphide & graphite.

Price: Not Available

Unit Qty: Not Available

DEVCON STOP-SEIZE COPPER

19020

A premium quality copper anti-seize and thread lubricant that may be used to prevent seizing, corrosion and galling where high temperature conditions exist. Temperature range -30°F to 1800°F (-34°C to 982°C). Provides good electrical conductivity.

LOCTITE 767 ANTI-SEIZE 250g

76741

A heavy duty, high temperature anti-seize thread compound suitable for heavy pressure applications. Lubricates at high temperatures and allows easy dismantling.

Automotive Greases

INOX MX8 PREMIUM GRADE PTFE GREASE

8020

The extreme pressure and anti-wear properties of INOX-mx8 grease gives long service life under high loading and shock loading conditions from very low to very high temperature environments. These special characters of shear stability, combined with the inclusion of effective rust, oxidation and corrosion inhibitors and tackiness adhesives, ensures this grease to be the preferred recommendation for sealed for life anti-friction bearings. INOX-mx8 has the ability to prevent scuffing and reduce wear under high load and shock load conditions, together with its excellent high shear stability and high temperature operation, makes INOX-mx8 the preferred choice over other extreme pressure greases. INOX-mx8 resists 'SQUEEZE OUT' from surfaces requiring lubrication under load conditions. INOX-mx8 has excellent resistance to water and water wash out even at elevated temperatures. Effective lubrication is maintained and in these situations it also gives protection against rusting and corrosion. INOX-mx8 will not thin out because it is shear resistant or thicken because it is resists oxidation. P.T.F.E. - Polytetrafluoroethylene is a premium grade anti-friction medium which gives increased lubrication and reduces operating temperatures to bearings, bushes, shafts, gears, chains, splines, PTO's, turntables, cables, universals, CV and ball joint

TRAILER LAMP COMBINATION L.E.D

FL096LED

The Eagle Eye range of LED (Light Emitting Diode) lamps are solid-state devices that do not use a brittle metal filament which is susceptible to shock and vibration. You will no longer have to worry about bad connections between the bulb and socket as a result of moisture, dirt and corrosion. Designed using the latest technology they are suitable for most general trailer lighting applications. LED lamps have a low current draw which reduces the load placed on electrical systems as well as extending battery life. In fact they deliver a longer lasting light at 1/10th of the power consumption of standard festoon or bayonet globes. Eagle Eye LED lamps illuminate instantaneously compared to older style globes. Most festoon or bayonet globes last around 3,000 hours where as the LED's operate for a minimum of 100,000 hours which makes them very cost effective. This technology eliminates the need to change globes that blow or rattle loose. Made from durable polycarbonate they

Price: Not Available

Unit Qty: Not Available

are completely sealed (see image) to eliminate dust and water from penetrating the lamp. Available in 12 volt only, they feature a simple click in & click out mounting system which does away with screws. Eagle Eye LED lamps are ADR approved & blister packed for maximum retail exposure. LED Qty: 18 Stop/Tail & 27 Indicator

Marine Lubricants

VALVOLINE 2 STROKE OUTBOARD MOTOR OIL 1ltr

110460

Valvoline High Performance 2 Stroke Outboard is suitable for use in Evinrude, Mercury, Mariner, Suzuki, Volvo, Yamaha engines requiring 25:1, 50:1, 100:1, petrol/oil ratio, including those outboards with oil injection. Valvoline High Performance 2 Stroke Outboard is recommended for use in high-speed, high-load and high engine temperature conditions, in both pre-mix and injection systems. • Recommended fuel/oil ratios from 10:1 to 100:1. See owner's manual for the correct fuel/oil ratio.

Power Steer & Brake Fluids

VALVOLINE DOT 3 BRAKE FLUID 500mls

8508

Valvoline's Heavy Duty DOT 3 Brake Fluid is suitable for use in Toyota's ABS brake systems and provides a minimum boiling point of 260°C. Consider that the standard minimum boiling point of the Australian/NZ DOT 3 specification is 230°C, and our Super DOT 3 more than meets the task. Valvoline Heavy Duty Brake Fluid has been dyed blue for easy identification.

Price: Not Available
Unit Qty: Not Available

VALVOLINE DOT 4 BRAKE FLUID 2.5ltr

90488

Valvoline Performance DOT 4 Brake Fluid or Valvoline Disc and Drum Brake Fluid. These fluids are suitable for car, truck and bus applications where a DOT 4 or SUPER DOT 4 is specified. The low moisture absorption maintains maximum performance even under the most severe braking conditions. Both products offer a minimum boiling point of 270°C.
